NEW YORK, March 20.—The demand for stocks which caused to-day's partial recovery of Yesterday's lossek was not of an important character. News from the conferences looking to a settlement of the coal mining labor dispute showed no definite outcome in prospect. An advance in the price of sugar was an incident of the day. The recovery in Amalgamated Copper gave rise to discussion of the growing foreign demand for the mental although the price in Losson yielded to-day after a sharp advance yesterday. Gross carnings of railroads reporting for the second week in March showed a decided shrinkage in the ratio of increase over-last year compared with that since the first of the year, which is attributed to the increased difficulties of operation caused by the bad weather conditions. The situation in the money market was not changed. The last half hour of the trading in the stock exchange was the most-active of the day, the demand from the short interest showing increased urgency. The market was favorably affected also by news that definite terms of settlement of the Moro-can dispute were believed to have been agreed upon. The closing tone was degelded firm and at about the top level. Bonds were steady; total sales par value, \$2,05,000. United States new 4s advanced 1-4 per cent. on call.

The total sales of stocks amounted to \$15.500 shares of stocks.

NEW YORK, March 29.—Money on call firm, highest 51-2 per cent.; lowest 4; ruling rate, 5; last loan, 51-4; closing bid, \$1,000 and \$1,000 and

COTTON,

NEW YORK, March 20.—The report of Census Department, issued to-day, shows a crop (including linters and counting round as half bales) of 10.87,03 or an average weight of 502.8 pounds.

This report is a great satisfaction to me, inasmuch as it is almost exactly corroborative of my estimate of this year's production, published on the 1st of December last, and which was 19.823,172 bales. It includes 20,497 bales of linters and 112,539 bales of Sca Island cotton. December last, and which was 19.823,172 bales. It includes 20,497 bales of linters and 112,539 bales of Sca Island cotton. December last, and which was 19.823,172 bales of the second of 10.355,000 bales, which is exactly the total indicated by my own ginners' report, published on the 1st of March. In almost every respect, therefore, the accuracy of mymothods is demonstrated by the government's latest returns.

Of the 10,355,000 bales so reported ginated, there were ginned prior to the lat of September 43,200 bales, and marketed prior to that date, according to Hester, 75,429 bales.

There remains therefore a total of 10,-280,000 bales of cotton available out of

for a safe and profitable investment, and in order to distribute the holdings among the people, subscriptions are accepted in ANY SUM FROM TEN DOLLARS UPWARD, payable either in cash or in ten monthly instalments.

As a rule the stock of a Bank, when in course of formation, is divided among a favored few, and people of moderate means hardly ever have an opportunity of subscribing to same. The SOUTHERN INTERSTATE BANK has been formed distinctly as the people's institution, and this alone assures its substantial success. It is an acknowledged fact that the stock in a well conducted Bank ranks in security next to Government bonds, while in carning power and corresponding advance in value, it excels any other form of safe investment. The opportunity to subscribe NOW to the stock of the SOUTH-ERN INTERSTATE BANK at par-without bonus or advance-should be embraced by every prudent man or woman capable of investing one or more W.
